Acknowledgments *(times, 16 font)*

1 line gap

The content of acknowledgments is for you as the author to decide. Here you should write the gratitude for them from whom you have taken suggestions, guidelines and other help directly or indirectly during your thesis. The length of paragraph should not exceed 300 words. *(times, 12 font)*

Authors
Rajshahi

Abstract *(times, 16 font)*

↑↓ 1 line gap

The abstract should be not more than **300** words. Abstract should contain the statement of main objectives, outline of method used for the study, outline of thesis results and conclusions. *(times, 12 font)*.

Key instructions:

- Clearly state the research objective, significance, and scope to show purposeful communication.
- Summarize the methodology and approach in a precise and understandable way.
- Highlight key results and conclusions to demonstrate effective presentation of findings.
- Ensure clarity, logical flow, and concise language, reflecting strong written communication skills.

List of contents *(times, 16 font)*

Chapter	Title	Page No.
	Certificate	i
	Acknowledgment	ii
	Abstract	iii
	List of contents	iv
	List of figures	v
	List of tables	vi
1	INTRODUCTION	1
	1.1 Background	2
	1.2 Research Objectives and Scope	3
	1.3 Rationale of the Research	4
	1.4 Outline of the thesis structure	5
2	METHODOLOGY	7
3	RESULTS AND DISCUSSIONS	10
4	-----	---

List of figures *(times, 16 font)*

Figure No.	Title	Page No.
1.1	Power transmission system of lathe machine	1

4		4
5		5

General Instructions

1. Chapter heading and Chapter number

Chapter number and Chapter heading should be (*times new roman, 16 pt, bold*)

Example:

Chapter 1 **Introduction**

2. Section heading

Section heading should be (*13 pt, times new roman, bold*)

Example: **1.2 Objectives**

3. Subsection heading

Subsection heading should be (*12 pt, times new roman, normal*)

Example: 1.2.1 Overall objectives

1.2.2 Specific objectives

4. Please try to avoid the **sub-subsection**

5. All the text should be (*times new roman, 12 font, normal*) normal font single line spacing

6. Figures and equations

Figure should insert in the text where the figure described. The caption location and number should be as follows-

Example:

Figure 3.2: Logo of Rajshahi University of Engineering & Technology

(Figure 3.2 means 2nd figure in chapter 3)

$$a + 2b + c = 5 \quad (\text{Equation 2.1})$$

(Equation 2.1 means 1st equation in chapter 2)

7. Tables

Table should insert in the text where it is described. The caption location and number should be as follows-

Example:

Table 3.4: Population Growth Rate of Bangladesh

Year	2000	2005	2007	2009	2012	2014
Growth rate	1%	1.5%	1.6%	1.4%	1.3%	1.2%

8. Page number

The regular page number should start from chapter 1 and insert at the bottom of the pages centred plain number without formatting (1, 2, 3..... etc). The 1st few pages before start the chapter 1 will be numbered as (i,ii, iii, etc).

9. Citing references in the text

When citing references in the text please use “[]” and put the number in the bracket that you have put in the reference list at the end of your report. You can use other references style as well but make sure you are using consistently throughout the entire thesis.

10. Appendix should put at the end of the report numbered as A, B, C.....

11. List of references

Make the reference list according to the sequence that you have used in the text. The styles of the references are as follows-

Journal Article:

- Name of authors (last name first + coma+ 1st letter of remaining name in capital with full stop)
- Year of publication
- Title of article
- Name of journal (Italic font)
- Volume number
- Issue number
- Page range

Example:

Uddin, M.S., Kumar, S., and Thomas, H.R. (2013). Design and performance study of a solar dryer. *Journal of Renewable Energy*, 7(2), 173-208.

Conference Article:

- Name of authors (last name first + coma+ 1st letter of remaining name in capital with full stop)
- Year of publication
- Title of article
- Name of conference
- place
- country

Example:

Uddin, M.S., Kumar, S., and Thomas, H.R. (2013). Design and performance study of a solar dryer. Proceedings in the International Conference of Mechanical, Industrial and Materials Engineering (ICMIME), Rajshahi University of Engineering & Technology, Rajshahi, Bangladesh.

Books and Report:

- Name of authors (last name first + coma+ 1st letter of remaining name in capital with full stop)
- Year of publication
- Title of Book or Report
- Place of publication
- Publisher

Example:

1. Uddin, M.S., Kumar, S., and Thomas, H.R. (2013). Design and performance study of a solar dryer. Bangladesh: Rajshahi University of Engineering & Technology.
2. United Nations Development Program, (2004). World energy assessment overview. New York: UNDP

Online sources:

- Name of authors (last name first + coma+ 1st letter of remaining name in capital with full stop)
- Year of publication
- Title of the Report
- Publisher
- Website & access date

Example:

Uddin, M.S., Kumar, S., and Thomas, H.R. (2013). Design and performance study of a solar dryer. Benefit Media Company limited. Available at: www.bmcoltd.com, Retrieved: December, 2013.

Key Instructions for writing Chapters

Chapter 1 Introduction

Introduction chapter should cover the following:

1. Definition of the problem and its significance
2. Background and motivation for research
3. Formulate the Research objectives and scope
4. Rationale of the research
5. Outline of the thesis structure

Chapter 2 Literature Review

Literature Review should contain the following:

1. Review of the related research article published
2. Principles, theories, and mathematics applicable to the engineering problem

Chapter 3 Methodology

Methodology chapter should contain the following:

1. Problem statement/geometry, assumptions, boundary conditions, if any, formulate the research questions
2. Research methods and approach
3. Theoretical assessment, Modelling and simulation, if any
4. System construction, experiments, etc.

Chapter 4 Results and Discussions

Results and discussions chapter should contain the following:

1. Estimation/calculation, and presentation of the raw data
2. Data analysis and interpretation/reasoning of the results
3. The result will reflect the published articles' societal, environmental, and sustainability aspects.
4. Implications of the results

Chapter 5

Conclusions and Future Work

Conclusions and future work chapter should contain the following:

1. Summary of key findings and contributions (Attainment of research objectives)
2. Limitations of the current research
3. The significance of prospective research and Future directions

Appendix

Appendix should contain the following:

Appendix A: Technical Specifications

Appendix B: Project Management and Financial Aspects (Table for expenses, economic analysis and Gantt Chart for 4-1 and 4-2)

Appendix C: Ethics, Teamwork and Communication

Ethics:

- Attach both the **(i) similarity report** and **(ii) AI report** (acquire this from your respective supervisors)
- In addition, Fill out the following form:

Research Ethics Compliance Checklist for Students

Declaration of Research Ethics Statement

- ☐ We have obtained the necessary permission from the relevant authorities to conduct this research.
- ☐ No harm was inflicted on animals or any living beings during the conduct of this research. This study strictly complies with all applicable laws regarding animal welfare and the protection of personal data.
- ☐ We confirm that no data in this study has been manipulated, fabricated or falsified.
- ☐ We obtained necessary permission from relevant sources, clearly cite and acknowledge all external sources.
- ☐ Others (if any)

Declaration of Conflict-of-interest Statement

Add yours and your supervisor's signature with name and date

Teamwork:**CRedit authorship contribution statement**

Student 1: Conceptualization, Methodology, Investigation, Data curation, Writing – original draft.

Student 2: Supervision, Validation, Writing – review & editing, Project administration.

Common keywords: Conceptualization, Methodology, Software, Validation, Formal Analysis, Investigation, Resources, Data Curation, Writing – Original Draft, Writing – Review & Editing, Visualization, Supervision, Project Administration, Funding Acquisition.

Communication:

Sample statement: Throughout the thesis, effective communication was maintained through weekly meetings with the supervisor and regular discussions among team members. Progress updates, technical challenges, and project milestones were documented and communicated through meeting minutes and progress reports. Technical findings were presented during proposal and final presentations using diagrams, charts, and demonstrations to ensure clear understanding among both technical and non-technical audiences. Feedback received from supervisors and peers was incorporated into subsequent project revisions, improving the quality of the final deliverables and enhancing professional communication skills.

Appendix D: PO and KPA Tracker**Appendix E:** List of publications (if any)
